[Despatch Abstract.]

Sub: ESTABLSIHMENT - Temporary - Additional Draftsman III Grade - South Kanara Division - Sanctioned.

OFFICE OF THE CHIEF ENGINEER, P.W.D. (GENERAL), CHEPAUK, MADRAS-5.

ENDT.NO.10047 AD4/55-2 dated 25-5-55.

Read:-From the Superintending Engineer, West Coast Circle No.235 W dated 1-3-55.
From the Superintending Engineer, West Coast Circle No.573 W dated 10-5-55.

ADDITIONAL DEPUTY SECRETARY TO GOVT. PUBLIC WORKS DEPARTMENT
47081
8-JUN 1955

Sub:- Establishment - Temporary - Additional Draftsman III Grade - South Kanara Division - Sanction - Requested.

Submitted to Government.

2. Comparing the strength of Draftsmen in the Divisions of Coimbatore Circle with that of the South Kanara Division the employment of one additional Draftsman III Grade in the South Kanara Division appears reasonable. In the circumstances, I recommend that sanction of Government may be accorded to the employment of one additional Draftsman III Grade in the South Kanara Division to cope up with the increase in works on account of Special Minor Irrigation Programme work and investigation of Schemes etc. for a period of one year from the date of employment.

3. Specific sanction may also be accorded for the drawal of compensatory allowances admissible under the rules by the incumbent of the post.

for Chief Engineer, P.W.D. (General)

To the Secretary to Government, Public Works Department, Fort St.George, Madras with enclosures.

From
Sri T.S.Padmanabha Ayyar, B.E.,
Superintending Engineer,
West Coast Circle, Coimbatore.

To
The Chief Engineer, P.W.D.
General,
Chepauk, Madras.5.

No. 235 W dated 1-3-55.

Sir,

Sub: Establishment - Additional Draftsman III Grade South Kanara Division - Sanction - Requested.

-o-

The South Kanara Division, has got at present the strength of one Draftsman II Grade and two Draftsman III Grade only in the Drawing Branch. The Division has got 4 sub divisions now. The present staff in the Drawing branch, is quite insufficient to cope up with the increasing works and on account of special Minor Irrigation Programme works and investigation of schemes etc. I enclose herewith a copy of letter No.246 SE dated 8-2-55 from the Executive Engineer South Kanara Division, explaining the necessity for the additional draftsman III Grade for the drawing branch.

I agree with the Executive Engineer and recommend the employment of an additional draftsman III grade to cope up with the extra work in the Division. Necessary sanction may kindly be obtained for one year in the first instance from date of employment.

Sd. T.S.Padmanabha Ayyar, 22.2.55.
Suptg. Engr., West Coast Circle.

S 50

Copy of the letter No.246 SE dated 8-2-55 from the Executive Engineer,South Kanara Division to the Superintending Engineer, West Coast Circle,Coimbatore.

Sub:-Statistics for an additional III Grade Draftsman for South Kanara Division, Mangalore.

Ref:-Suptg.Engineer's No.978 SK dt.29-12-54.

With reference to the above, I have to inform that the present strength of one head-draftsman II Grade and two third grade Asst.Draftsman for this division is very meagre when compared with the heavy work that is being attended to by drawing branch.

First of all Mangalore is a district centre and the north sub division, Mangalore has to deal with preparation of estimates and plans for the requisitions received from the District Heads of Departments, Revenue, Police, Prohibition, Animal Husbandry, Agricultural, Education and Medical and Jail authorities and district courts. So one draftsman is busily engaged with the checking of plans and estimates acceptance agreements, etc. in connection with all the departments. In addition to this, he is to deal with the Udipi and Coondapur works relating to construction of two Maternity wards in both the centres, and also buildings in these taluks. He has to deal with verification of completed plans, original proposals when submitted to heads of Departments, etc., Hence, it is very tight for one Draftsman III Grade.

Then we have got the hospital works, very important now in progress, and one draftsman is necessary to attend to the Hospital works and ice-plant works, schemes included in the 5 year plan. In addition to it, he is dealing with indents for cement, steel and some fortnightly returns and miscellaneous correspondence. As the correspondences relating to hospital works cannot bear any postponement and replies are to be sent direct to the Chief Engineer,Consulting Architect, etc. the Draftsman is engaged fully.

For attending to the G.M.F.sub division and S.M.I.P.works, there is no separate draftsman. The head draftsman is engaged with supervision of the works of the above two men and also some important correspondences, tender schedules, comparative statements, etc.

Therefore, for attending to the immediate scrutiny of the proposals from the above two sub divisions, G.M.F. and S.M.I.P.works which are special sub divisions and any estimate or proposal cannot be delayed as work is to be finished timely and in season one Asst.Draftsman is quite essential. Now, the brunt is borne by the Asst. Draftsman who is attending to hospital works, but things could not be expedited then and there, and much delay is seen owing to heavy pressure of work. Generally in other divisions one separate III Grade Draftsman is posted for one sub division and when every additional sub division is sanctioned, an additional hand is posted. Here for four sub divisions there are only two draftsman. At least three are required to see that work is done without arrears.

contd..p.2.

This has been explained in person to the Superintending Engineer, Coimbatore Circle, Chief Engineer, General in 12/54 when they camped in this division and Superintending Engineer, West Coast Circle and Chief Engineer,(Special) Irrigation, in 1/55.

A statement showing estimates and other pending items in Drawing Branch as in 12/54 is herewith enclosed. Only certain urgent things have been finalised now. The rest could not be cleared for want of a Additional III Grade Draftsman.

Under the above circumstances, as it is a fit case for the sanction of an additional draftsman, the Chief Engineer may please be applied for obtaining Government sanction and one additional draftsman III Grade may be posted from 1-3-55 at least.

Sub:-Establishment - Temporary - Additional Draftsman III Grade:- South Kanara Division. - Sanction of.

Ref:-Your No.10047.AD-4/55-7, dated 23-8-1955.
Your No.10047-AD-4/55-10, dated 29-9-55..
Your No.10047-AD-4/55-11, dated 10-11-55.
Your No.10047-AD-4/55-13, dated 28-11-55.
Your No.10047.AD-4/55-14, dated 28-11-55.
Your No.10047.AD-4/55-15, dated 17-1-56..

I enclose a copy of South Kanara Division Executive Engineer's report in his No.34.SE., dated 4-1-56 in reply to the points raised in your No.10047-AD-4/55-7, dated 23-8-55 regarding the special items of work attended to in the Drawing Branch of the South Kanara Division Office.

A revised comparative statement as it stands to-day is enclosed.

It can be seen from the statistics furnished that in other divisions there is a separate III grade Draftsman to attend to the works connected with the checking of estimates pertaining to each sub division and the No. of III grade Draftsman employed in the Drawing Branch is equal to the No. of Sub Divisions.

As the No. of Sub Division in the South Kanara Division is four and only 2 III grade draftsmen are employed, I strongly recommend the request of the Executive Engineer and request that the sanction of Government for the employment of a III grade draftsman for a period of one year from date of employment may please be obtained and communicated.

Encl:
1. Revised comparative statement (in duplicate)
1 Copy of Executive Engineer's letter.

Copy of letter No.34. SE., dated 4-1-1956 from the Executive Engineer, South Kanara Division, Mangalore to the Superintending Engineer, West Coast Circle, Coimbatore.

Sub:-Establishment - Temporary Additional Draftsman - III grade - South Kanara Division - Sanction - regarding.

Ref:-Your D.O. No.1363.SK., dated 21-12-55 and 1412.SK., dated 31-12-1955.

The present strength of my drawing branch is one II grade head draftsman with two III grade assistant draftsmen.

The division consists of four sub divisions, viz., (1) North Sub Division, Mangalore, (2) Special Sub Division, Mangalore, (3) G.M.F. Sub Division, Mangalore and (4) Special Minor Irrigation Programme Sub Division, Coondapur.

Mangalore being the district headquarters of the South Kanara District, the draftsman attending to the works of Mangalore Sub Division has to deal .. .. (pto)

42

deal with all the estimates and plans relating to original works, special repairs and ordinary repairs of the several Government offices and quarters spread over the entire South Kanara District. He has to scrutinise all the sub division agreements accepted by the Sub Divisional Officer and prepare tender notices and draftagreements relating to original works and has to attend to the other miscellaneous works such as scrutinising of completed plans and recording them etc., Besides he has to attend to the numerous references received from the District and Subordinate officers. The volume of work to be attended to by this draftsman is too unwieldy and it is found by actual experience that it is not possible for one dratsman to attend to the estimates and references received from the Sub divisional officer and the district and subordinate officers, without any heavy arrear in this seat.

Then comes the Hospital works which is a very important work included under the 5 year plan, where a huge amount of grant is to be spent. To enable the grant to be spent in time without lapse, one draftsman solely to attend to the works connected with this sub division is absolutely necessary. He has to scrutinise many working estimates and plans and approve them in time. Indents for iron and steel and cement are to be prepared and submitted. Besides he has to attend the preparation and scrutiny of the numerous fortnightly and monthly returns to be submitted to the Superintending Engineer, Chief Engineer and also to the Collector, in time, in addition to his attending to many other miscellaneous correspondences from the District Medical Officer and other local Officers. Thus for attending to all these works the services of one draftsman will be absolutely necessary, especially as this is a concentrated programme of work of large magnitude amounting to 32.5 lakhs.

Next comes the G.M.F. Sub Division, Mangalore and the Special Minor Irrigation Programme Sub Division, Coondapur. These Sub Divisions are formed for the investigation and preparation of detailed plans and estimates relating to irrigation works, particularly the Special Minor Irrigation works. Many scheme, major and minor schemes have been investigated by these Sub Divisions and detailed plans and estimates have been prepared and submitted to the Superintending Engineer. Estimates for some schemes prepared and submitted by these sub divisional Officers are pending scrutiny in the division office and many more schemes are either being investigated or under investigation by the Sub Divisional Officer. But there is no separate draftsman to attend to these most important special minor irrigation works, where a huge amount of grant is programmed to be spent.

The head draftsman is engaged in the supervision works of the assistant draftsmen and in the disposal of certain important correspondences, preparation of tender notices, tender schedules, comparative statements and drawing up of agreements for important major works. Due to non-provision of draft man for looking after the works of the G.M.F. and S.M.I.P. Sub Divisions, I find heavy arrears and the drawing branch is not able to cope with the pressure of work and even urgent references are sometimes delayed due to the inadequacy of staff. Besides large number of references and estimates are also being received for scrutiny from the Block Development Officer, and Community Project Officer etc.,and thus the drawing branch work is heavily increased. There is already heavy arrears in the drawing branch and an additional III grade draftsman is

(pto)

SECY.
14 MAR 1956

is absolutely necessary to get on with the normal working of the drawing branch. I, therefore request you to kindly address the Chief Engineer pressing for the immediate sanction of a III Grade draftsman in the interest of work, in this division, and any further particulars required may kindly be supplemented from your office. No special staff has been sanctioned for the Drawing Branch.

BOARD OF REVENUE
14 MAR 1956

FOOD PRODUCTION

I, request very early action in the matter.

The post of III grade draftsman applied for in this reference is for the normal work of the division. The additional staff required for the division as a whole, due to the schemes recently sanctioned will be applied for separately. I shall submit proposals in a couple of days for all categories of staff required in connection with these Schemes.

Submitted to Government, with reference to - para 2 of their Memorandum No.F.P.U.24173/55-1, dated 27-6-55.

I request that very early orders of Government may be issued, sanctioning the post of Draftsman III grade for South Kanara Division applied for in my endorsement No.11047.AD-4/55-2, dated 25-5-55.
